

Tailings Superintendent

Copper Mountain Mining Corporation is a TSX/ASX listed copper producer, developer, and explorer. Headquartered in Vancouver, BC, Copper Mountain trades on the Toronto Stock Exchange under the symbol “CMMC” and the Australian Stock Exchange under the symbol “C6C”. Copper Mountain’s flagship asset is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton.

The Copper Mountain mine currently produces approximately 100 million pounds of copper equivalent per year. With a future mill expansion and the integration of New Ingerbelle, the Copper Mountain Mine is expected to produce approximately 140 million pounds of copper equivalent per year over the first 20 years of its 32-year mine life based on reserves. Copper Mountain is committed to the safe, responsible mining of copper, which is vital to powering a clean-energy future.

Become a Part of Our Team

As we continue to grow Copper Mountain Mining Corporation, there are many career development opportunities available for motivated and goal-oriented individuals.

Work with us and you will benefit from the mentorship and guidance of experienced team members because we understand that in order to accomplish our goals, we must work as a team and rely on the effort of every team member.

Position

Tailings Superintendent

Location

Copper Mountain Mine is located near the town of Princeton, British Columbia at the center of the scenic Similkameen Valley. Princeton is a community-oriented town with a diverse offering of activities, especially for those who love the outdoors. Princeton is also in close proximity to both the city of Vancouver and the Okanagan.

Summary

Reporting to the Mill Operations Manager, this position is responsible for managing the Tailings team and ensuring the ongoing safe operation of the tailings management facility.

Key Responsibilities

- Ensure strong safety performance and zero Lost-Time injuries within the Mill Tailings department,
- Manage the operation, maintenance, and surveillance of the Tailings Management Facility (TMF),
- Oversee day to day operational and maintenance issues associated with the construction of the TMF, in conjunction with other departments as required,
- Liaise with the Engineer of Record on monitoring data, quality data and production plans,
- Act as the TMF Qualified Person as defined in the Health, Safety and Reclamation Code for Mines in British Columbia,

- Liaise with the Company's ITRB in bi-annual meetings and update the Terms of Reference as it may be modified from time to time,
- Integrated role in short-term and long-term planning, budgeting and execution for the development of the TMF,
- Oversee supervision of the operations team associated with the safe construction and management of the TMF,
- Integral role in implementing the Water Management Plan associated with the mill and TMF and responsible for the site wide water balance,
- Integrated into the Mill department to provide support and coordination when required for department wide projects such as, but not limited to, mill shutdowns, civil construction projects and,
- Ensure compliance with all TMF design requirements, and applicable safety and environmental regulations, company policies and standards.

Education & Experience

- Degree in Metallurgical, Chemical, Mining, Mineral Processing, or Geotechnical engineering relatable to Tailings Management,
- A minimum of eight (8) years experience, including significant time spent managing tailings storage facilities,
- P. Eng designation or ability to register with EGBC as a Professional Engineer,
- Previous management experience in a technical environment with proven leadership abilities,
- Valid driver's license.

Required Skills

- Excellent oral, written, active listening skills with strong analytical and conceptual thinking skills to present ideas clearly,
- Strong leadership, communication, creativity, and problem-solving skills,
- Solid understanding of government regulations and demonstrated ability to impact safe working practices,
- Highly proactive and achievement-oriented, focused on satisfying customer requirements,
- Demonstrated ability to lead and work within a team and achieve results,
- Highly organized with excellent project management and analysis skills,
- Skill in evaluating, training, and motivating employees,
- Able to identify key issues; creatively and strategically overcome challenges or obstacles,
- Ability to adapt management style to different situations.

Working Conditions

- Work involves a set work schedule on-site at Copper Mountain Mine, Monday to Friday,
- Work may require manual dexterity required to use desktop computers and peripherals,
- Occasional exposure to fluctuations in sounds, temperature, noise, and vibration levels,
- Overtime and weekend work may be required.
- Some travel may be required,
- Required to meet pre-employment testing requirements.

To Apply

To apply, please send your cover letter and resume to humanresources@cumtn.com. Please include '**Tailings Superintendent**' in the subject line of your email response.
