

Metallurgist

Copper Mountain Mining Corporation is a TSX/ASX listed copper producer, developer, and explorer. Headquartered in Vancouver, BC, Copper Mountain trades on the Toronto Stock Exchange under the symbol “CMMC” and the Australian Stock Exchange under the symbol “C6C”. Copper Mountain’s flagship asset is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton.

The Copper Mountain mine currently produces approximately 100 million pounds of copper equivalent per year. With a future mill expansion and the integration of New Ingerbelle, the Copper Mountain Mine is expected to produce approximately 140 million pounds of copper equivalent per year over the first 20 years of its 32-year mine life based on reserves. Copper Mountain is committed to the safe, responsible mining of copper, which is vital to powering a clean-energy future.

Become a Part of Our Team

As we continue to grow Copper Mountain Mining Corporation, many career development opportunities are available for motivated and goal-oriented individuals.

Work with us and you will benefit from the mentorship and guidance of experienced team members because we understand that to accomplish our goals, we must work as a team and rely on the effort of every team member.

Position

Metalurgist

Location

Copper Mountain Mine, is located near the town of Princeton, British Columbia at the center of the scenic Similkameen Valley. Princeton is a community-oriented town with a diverse offering of activities, especially for those who love the outdoors. Princeton is also in close proximity to both the city of Vancouver and the Okanagan.

Summary

Reporting to the Chief Metallurgist, the Metallurgist is responsible for providing metallurgical support to mill operations and metallurgical department to improve performance, stability, and overall efficiency of the plant.

This is a temporary (6 months) position.

Key Responsibilities

- Support commissioning of new concentrate filter press.
- Supports operations in troubleshooting and optimizing operational circuits to achieve production targets,
- Assists mill operation supervisors in providing technical surveillance and response across the mill operation,

- Works alongside circuit operators to highlight successes and work collaboratively to capture opportunities to achieve operational targets,
- Works alongside Mill Metallurgists to provide operational background and guidance on short and long term challenges that may require additional resources,
- Conducts month end inventory reconciliation
- Supports metallurgical trials, pilot plants and commissioning of new processing equipment
- Performs any other responsibilities related to the Metallurgist role as required or assigned by the department head.

Education & Experience

- Minimum 1 years' experience in Metallurgy or related industrial field,
- Working knowledge of principles and methods used in metallurgical and processing analysis and exposure to using analytical / statistical tools,
- Previous metallurgical laboratory and project management experience is an asset,
- Previous commissioning experience on filter press is an asset,
- Possess a valid Class 5/7N driver's license and have access to personal transportation.

Required Skills

- High degree of resourcefulness, flexibility, and adaptability,
- Able to effectively communicate both verbally and in writing,
- Self- motivated and able to work with minimal supervision,
- Able to prioritize, multitask, use timelines, and time management techniques,
- Strong communicator – bridge between technical and operational teams,
- Collaborative, hands-on approach,
- Required to meet pre-employment testing requirements.

Working Conditions

- Exposure to dust and high noise levels,
- Work consists of a team environment with regularly scheduled and ad-hoc meetings,
- Frequent exposure to driving in congested high traffic mining and construction areas under varying weather conditions,
- Role requires the employee to walk in similar congested/high traffic construction areas as well as more remote areas on site (uneven footing is commonplace),
- Work required frequent lifting/carrying up to 50 pounds,
- Required to be clean-shaven.

To Apply

To apply, please send your cover letter and resume to humanresources@cumtn.com. Please include '**Metallurgist**' in the subject line of your email response.

Copper Mountain Mine is an equal opportunity employer committed to diversity, equity, and inclusion. While we consider all qualified applicants for employment and thank all applicants for their interest, only those selected for an interview will be contacted.
