**MANAGEMENT'S DISCUSSION & ANALYSIS ("MD&A") OF FINANCIAL CONDITION  
& THE RESULTS OF OPERATIONS FOR THE PERIOD ENDED JUNE 30, 2014**

August 10, 2014

**Introduction**

*Management's discussion and analysis ("MD&A") focuses on significant factors that affected Copper Mountain Mining Corporation's performance and factors that may affect its future performance. In order to better understand the MD&A, it should be read in conjunction with the consolidated financial statements for the period ended June 30, 2014. The Company reports its financial statements in accordance with International Financial Reporting Standards ("IFRS"). The Company's significant accounting policies are set out in Note 3 of audited consolidated financial statements for the year ended December 31, 2013. The Company's financial statements and the MD&A are presented in Canadian dollars and are intended to provide a reasonable basis for the investor to evaluate the Company's development and financial situation.*

**Forward-Looking Statements**

The MD&A contains certain statements that may be deemed "forward-looking statements." All statements in this MD&A, other than statements of historical fact, that address exploration drilling, exploitation activities, and events or developments that the Company expects to occur, are forward-looking statements. Estimates regarding the anticipated timing, amount and cost of mining at the Copper Mountain mine are based on assumptions underlying mineral reserve and mineral resource estimates and the probability of realizing such estimates are set out in the Updated Feasibility Study on the Copper Mountain Mine. Capital and operating cost estimates are based on extensive research by the Company, recent estimates of construction and mining costs and other factors that are set out herein and in the Updated Feasibility Study. Production estimates are based on mine plans and production schedules, which have been developed by the Company's personnel and independent consultants. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential", "targets" and similar expressions, or that events or conditions "will", "would", "may", "could", or "should" occur. Information inferred from the interpretation of drilling results and information concerning mineral resource estimates may also be deemed to be forward-looking statements, as it constitutes a prediction of what might be found to be present when and if a project is actually developed. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in the forward-looking statements. Factors that could cause the actual results to differ materially from those in forward-looking statements include, but are not limited to: general business, economic, competitive, political and social uncertainties; the limited operating history of the Company; actual results of reclamation activities; conclusions of economic evaluations; fluctuations in the value of the Canadian dollar relative to the United States dollar; changes in project parameters as plans continue to be refined; failure of equipment or process to operate as anticipated; changes in labor costs and other costs and availability of equipment or processes to operate as anticipated; accidents, labor disputes and other risks of the mining industry, including but not limited to environmental hazards, cave-ins, pit-wall failures, flooding, rock bursts and other acts of God or unfavorable operating conditions and losses, detrimental events that

interfere with transportation of concentrate or the smelters ability to accept concentrate, including declaration of Force Majeure events, insurrection or war; delays in obtaining governmental approvals or revocation of governmental approvals; title risks and Aboriginal land claims; delays or unavailability in financing or in the completion of development or construction activities; failure to comply with restrictions and covenants in senior loan agreements, actual results of current exploration activities; volatility in Company's publicly traded securities; and the factors discussed in the section entitled "Risk Factors" in the Company's annual information form and in the Company's continuous disclosure filings available under its profile on SEDAR at [www.sedar.com](http://www.sedar.com). Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements. Forward-looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made. Accordingly, readers should not place undue reliance on forward-looking statements. The Company does not undertake to update any forward-looking statements, except in accordance with applicable securities laws.

**Cautionary Note to Investors Concerning Estimates of Measured and Indicated Resources.** This discussion Uses the terms "measured resources" and "indicated resources". The Company advises investors that while those terms are recognized and required by Canadian regulations, the U.S. Securities and Exchange Commission does not recognize them. **Investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into reserves."**

## Highlights

(CDN\$ except for cash cost results)	Three months ended		Six months ended

Total cash costs per pound of copper sold (net of precious metal credits) (US\$)	2.27	2.32	2.18	2.25

### Second Quarter Results & Highlights (100%)

- Revenues for the quarter were \$68.0 million including positive pricing adjustments of \$5.8 million.
- Sales of concentrate for the period contained 18.0 million pounds of copper, 6,300 ounces of gold, and 94,900 ounces of silver.
- Total production for the 2014 second quarter at Copper Mountain mine was 19.9 million pounds of Copper, 5,000 ounces of gold, and 113,300 ounces of silver. This represents a 27% increase in copper production over the second quarter of 2013.
- Realized prices on metal sales for the 2014 second quarter was \$3.08 per pound of copper, \$1,293 per ounce of gold and \$19.62 per ounce of silver.
- Site cash costs for the quarter was US\$1.63 per pound of copper produced net of precious metal credits.
- Total cash costs for the quarter was US\$2.27 per pound of copper sold net of precious metal credits and after all off-site charges.

<sup>1</sup> Adjusted earnings (loss) is a non-GAAP financial measure which removes unrealized gains/losses on interest rate swaps, pricing adjustments on concentrate metal sales and foreign currency gains/losses.

<sup>1</sup> Calculated based on weighted average number of shares outstanding under the basic method based on earnings attributable to shareholders.

<sup>2</sup> Calculated by dividing the total adjusted earnings by the weighted average number of shares outstanding under the basic method.

<sup>3</sup> Earnings before interest, taxes, depreciation and amortization .Refer to the Non-GAAP Performance measures section of this MD&A.

## Overview

Copper Mountain Mining Corporation was incorporated under the provisions of the *British Columbia Company Act* on April 20, 2006. The Company owns 75% of the Copper Mountain mine through a subsidiary and Mitsubishi Materials Corporation (“MMC”) owns the remaining 25% of the Copper Mountain mine through a subsidiary.

The Company is a mid-tier copper-gold producing company that is fully focused on optimizing the Copper Mountain mine. Following the successful exploration programs of 2007 and 2008 the Company completed an updated Feasibility Study and committed to the development of the new mine. On April 1, 2010 the BC Government issued the approval that allowed for construction of the \$438 million development to proceed.

The Feasibility Study development plan was based on combining the three existing pits into one larger super pit and constructing a new 35,000 tonnes per day (TPD) concentrator designed to produce approximately 100 million pounds of copper per year in a copper concentrate with gold and silver credits. Over the initial 17 year mine life the mine is planned to produce 1.48 billion pounds of copper, 4,490,400 ounces of silver and 452,000 ounces of gold.

Mechanical completion of the concentrator and associated facilities was achieved by the end of May 2011, and testing of the equipment was finished by the end of June 2011. Production of copper concentrate commenced during the third quarter of 2011.

The Company trades on the Toronto Stock Exchange under the trading symbol “CUM”.

## Copper Mountain Mine

The Copper Mountain mine is situated 20 km south of Princeton, British Columbia and 300 km east of the port of Vancouver. The development was based on the 2008 Feasibility Study and consisted of the construction of a 35,000 TPD concentrator. Based on Feasibility Study reserves, the mine has a life of 17 years. The property consists of 135 Crown granted mineral claims, 156 located mineral claims, 14 mining leases, and 12 fee simple properties covering an area of 6,702.1 hectares or 67 square kilometers.

The mine is a conventional open pit, truck and shovel operation. Mining is divided into multiple development phases with sequential pushbacks in each of the pits. This development sequence is designed to maximize the discounted cash flow which is reflected in the planned pit phases. In order to maximize the head grade being delivered to the concentrator in the initial years the Company is processing ore greater than 0.20 % Cu, while ore that is less than 0.20 % Cu but greater than 0.1% Cu is being mined and stockpiled (low grade stockpile) for processing in later years.

The Company’s mining equipment fleet consists of two Komatsu PC 8000 hydraulic shovels, a Hitachi EX 5500 hydraulic shovel, fifteen Komatsu 240 ton capacity haul trucks, six Euclid 260 ton haul trucks, a Komatsu WA 1200 loader, four Komatsu D375 dozers, and three Caterpillar 16G graders, plus other support equipment typical of an operation of this size.

The following table sets out the major operating parameters for the mine for the three and six months ended June 30, 2014.

<b>Mine Production Information</b>	<b>Three months ended</b>		<b>Six months ended</b>	
	<b>2014</b>	<b>June 30, 2013</b>	<b>2014</b>	<b>June 30, 2013</b>
<b>Copper Mountain Mine (100% Basis)</b>				
<b>Mine:</b>

Copper production (000's lbs)	19,900	15,700	39,000	29,900
Gold production (oz)	5,000	5,600	10,500	11,000
Silver production (oz)	113,300	71,000	218,600	135,000
Site cash costs per pound of copper produced (net of precious metal credits) (US\$)	\$1.63	\$1.81	\$1.64	\$1.72
Total cash costs per pound of copper sold (net of precious metal credits) (US\$)	\$2.27	\$2.32	\$2.18	\$2.25

Copper production for the second quarter of 2014 totaled 19.9 million pounds of copper, a 27% increase as compared to the second quarter of 2013, setting a new quarterly production record for the mine. The concentrate also included 5,000 ounces of gold and 113,300 ounces of silver. During the quarter the mill processed a total of 2.8 million tonnes of ore at an average grade of 0.39% copper. SAG Mill throughput continued to be assisted during the quarter with the temporary portable crushing units put in place last year. Copper production was in line with guidance and the mill averaged 90% availability during the quarter.

Mining activities continued on the stage two pushback on the east side of Pit 3, while mining activities in the Pit 2 area were focused more towards the southwest end of the Pit. During the quarter a total of 16.1 million tonnes of material was mined, including 4.6 million tonnes of ore and 11.5 million tonnes of waste. The projected life of mine strip ratio is 2 to 1 but higher in the early years. The mine moved an average of approximately 174,000 tonnes of material per day during the quarter. With the addition of two new haul trucks that were commissioned in May and the new dispatch system productivity increased to the 200,000 tpd capacity level in June. The mining fleet continues to have excellent mechanical availability.

During the period, the Company completed a total of three shipments containing approximately 18.0 million pounds of copper, 6,300 ounces of gold, and 94,900 ounces of silver which generated \$68.0 million in revenue net of pricing adjustments, as compared to 14.7 million pounds of copper, 5,400 ounces of gold, and 66,000 ounces of silver which generated \$45.7 million in revenue net of pricing adjustments during the same

<sup>4</sup> Excludes ore re-handle from stockpile

<sup>5</sup> Tonnes per day

period last year. As a result of increased copper, gold and silver sales revenues were up \$22.3 million compared to the same period last year. In addition, positive pricing adjustments of \$5.8 million were recorded during the second quarter of 2014. This compares to a negative pricing adjustment of \$5.3 million in the prior year period.

Construction of the new permanent secondary crusher facility was completed on schedule and on budget. All major equipment has been installed and construction is considered complete. The new secondary crusher received its first ore during the first week of August and since then the crusher operated well at 2,600 tpd. With the contribution of the new crusher during its commissioning the SAG mill throughput averaged 34,442 tpd during the first week of August and management is satisfied with the progress to date.

The three short term portable crushing units utilized over the past year are now sitting idle, awaiting the order for being dismantled which should occur over the next few weeks. The Company currently has 410 operating employees 33 summer students and 4 co-op students employed at the mine site.

### **Exploration – Mine Site**

The Company plans additional drilling in the Oriole deposit this fall to assist with mine planning in order to incorporate this deposit into the 2015 mine plan. Additional drilling is also being planned for other areas of the mine site to assist with further optimization of the production plan.

## Results of Operations

<sup>7</sup> Cost of sales consists of direct mining and milling costs (which include mine site employee compensation and benefits, mine site general and administrative costs, non-capitalized stripping costs, maintenance and repair costs, operating supplies and external services), depreciation and offsite transportation and concentrate treatment costs.

<sup>8</sup> Adjusted earnings (loss) is a non-GAAP financial measure which excludes unrealized gains/losses on derivative instruments, changes in fair value of financial instruments, foreign currency gains/losses, pricing adjustments related to metal sales and non-recurring transactions.

**For the Three Months Ended June 30, 2014**

The Copper Mountain mine produced 35,800 DMT of copper concentrate containing approximately 19.9 million pounds of copper during the three months ended June 30, 2014 compared to 15.7 million pounds of copper in the prior year. The mine shipped a total 32,700 DMT of copper concentrate containing approximately 18.0 million pounds of copper, 6,300 ounces of gold, and 94,900 ounces of silver during the three months ended June 30, 2014; compared to a total of 14.7 million pounds of copper, 5,400 ounces of gold and 66,000 ounces of silver during the three months ended June 30, 2013. Site cash costs were US\$1.63 per pound of copper produced, net of precious metal credits, and total cash costs were US\$2.27 per pound sold, net of precious metal credits, for the three months ended June 30, 2014; compared to site cash costs of US\$1.81 per pound of copper produced and total cash costs of US\$2.32 per pound of copper sold, net of precious metal credits for the three months ended June 30, 2013. Site cash costs were relatively unchanged on a total dollar value basis, but on a US\$ per pound of copper basis decreased due to the change in US\$ to CAD\$ exchange rate.

During the period the Company recognized revenues of \$68.0 million, including a \$5.8 million positive pricing adjustment and net of \$5.3 million in treatment charges based on an average provisional copper price of approximately US\$3.08 per pound; compared to revenues of \$45.7 million net of pricing adjustments and an average copper price of US\$3.18 per pound for the period ended June 30, 2013. This increase in revenue is the result of increased sales volumes as compared to the same period last year. Mining operations for the three month period ended June 30, 2014 resulted in gross income of \$10.4 million as compared to a gross loss of \$1.6 million for the period ended June 30, 2013. The Company reported net income attributable to the shareholders of the Company of \$9.4 million or \$0.08 per share for the three months ended June 30, 2014, compared to a net loss of \$14.7 million or \$0.15 per share for the three months ended June 30, 2013. The income for the quarter was directly attributable to increased revenues on the Company's copper concentrate sales a result of increased sales volumes of copper concentrate sold, a non-cash unrealized foreign exchange gain of \$10.9 million that is primarily attributable to the Company's project debt that is denominated in U.S. dollars and positive pricing adjustments of \$5.8 million on metal sales. This compares to an unrealized foreign exchange loss of \$10.5 million for the three month period ended June 30, 2013 which was attributable to the Company's project debt which is denominated in U.S. dollars and negative pricing adjustments on metal sales of \$5.4 million.

Cost of sales represent direct mining and milling costs (which include operating, non-capitalized waste stripping costs, maintenance and repair costs, mine site general and administrative costs, operating supplies and external services), employee compensation and benefits, depreciation, transportation and treatment costs. The cost of sales for the three month period ended June 30, 2014, was \$57.6 million compared to \$47.3 million for the three month period ended June 30, 2013. The increase in costs during the quarter are a result of increased sales volumes of copper concentrate sold compared to the three months ended June 30, 2013.

General and administration expenses for the three months ended June 30, 2014, were \$1.3 million compared to \$1.0 million for the three months ended June 30, 2013. Non-cash share based compensation reflected an expense of \$1.4 million for the three months ended June 30, 2014, compared to a recovery of \$0.04 million for the three month period ended June 30, 2013. The increase in non-cash share based compensation is a result of the issue of stock options in the period and an increase in the deferred share unit expense as a result of the increase in the Company's stock price.

Other items recorded include finance income of \$0.1 million, finance expense of \$2.6 million and a current and deferred income and resource tax expense of \$1.3 million for the three months ended June 30, 2014, compared to finance income of \$0.09 million, finance expense of \$2.2 million, and resource tax recovery of \$0.9 million for the three months ended June 30, 2013. Finance expense primarily consists of interest on loans and the amortization of loan related financing fees.

**For the Six Months Ended June 30, 2014**

The Copper Mountain mine produced 70,616 DMT of copper concentrate containing approximately 39.0 million pounds of copper during the six months ended June 30, 2014 compared to 29.9 million pounds in the prior year. The mine shipped and sold a total 68,300 DMT of copper concentrate containing approximately 37.8 million pounds of copper, 12,800 ounces of gold, and 194,000 ounces of silver during the six months ended June 30, 2014 compared to 29.9 million pounds of copper, 10,900 ounces of gold and 135,000 ounces of silver during the six months ended June 30, 2013. Site cash costs were US\$1.64 per pound of copper produced and total cash costs were US\$2.18 per pound sold for the six months ended June 30, 2014 compared to site cash costs of \$1.72 per pound of copper produced and total cash costs of \$2.25 per pound sold for the six months ended June 30, 2013. Site cash costs were relatively unchanged on a total dollar value basis, but on a US\$ per pound of copper basis decreased due to the change in US\$ to CAD\$ exchange rate. During the period the Company recognized revenues of \$129.2 million, net of pricing adjustments and based on an average provisional copper price of US\$3.14 per pound compared to revenues of \$100.8 million and a provisional copper price of US\$3.37 per pound for the six months ended June 30, 2013. Gross profit for the six month period ended June 30, 2014 was \$11.5 million as compared to \$6.4 million for the period ended June 30, 2013. The increase in gross profit was primarily a function of increased sales volume compared to the prior year period. The Company reported a loss attributable to the shareholders of the Company of \$2.7 million or \$0.02 per share for the six months ended June 30, 2014, compared to a net loss of \$17.0 million or \$0.17 per share for the six months ended June 30, 2013. The income for the six months period ended June 30, 2014, recorded an unrealized foreign exchange loss of \$0.7 million which was primarily related to the Company's project debt that is denominated in U.S. dollars. This compares to an unrealized foreign exchange loss of \$16.8 million which was primarily related to the Company's project debt that is denominated in U.S. dollars for the six month period ended June 30, 2013.

Cost of sales represent direct mining and milling costs (which include operating, non-capitalized waste stripping costs, maintenance and repair costs, mine site general and administrative costs, operating supplies and external services), employee compensation and benefits, depreciation, transportation and treatment costs. The cost of sales for the six month period ended June 30, 2014, was \$117.7 million compared to \$94.4 million for the six month period ended June 30, 2013.

General and administration expenses for the six months ended June 30, 2014, were \$2.9 million compared to \$2.7 million for the six months ended June 30, 2013. Non-cash share based compensation reflected an expense of \$2.8 million for the six months ended June 30, 2014, compared to an expense \$0.2 million for the six month period ended June 30, 2013. The increase in non-cash share based compensation is a result of the issue of stock options in the period and an increase in the deferred share unit expense as a result of the increase in the Company's stock price.

Other items recorded under other income and expenses include finance income of \$0.2 million, finance expense of \$4.7 million and current and deferred tax expense of \$0.4 million. Finance expense primarily consists of interest on loans and the amortization of financing fees.

## Summary of Quarterly Results

The following table contains selected quarterly financial information derived from the Company's financial statements and should be read in conjunction with the consolidated quarterly financial statements reported under IFRS.

Quarter	Revenue <sup>6</sup> \$	Net Income (Loss) \$	Profit (Loss) Attributable to Shareholders \$	Cash flow from operations \$	Income (Loss) per Share Basic \$	Income (Loss) per Share Diluted \$

September 30, 2012 (restated)	47,646,402	9,837,744	7,021,854	8,998,606	0.07	0.07

Cash flow from operations and Net Income (Loss) and Profit (Loss) attributable to the shareholders varies from period to period primarily as a result of operational performance discussed in the overview section above, non-cash share based compensation charges, changes in foreign exchange rates, the timing of concentrate shipments and valuation of the interest rate swap related to a portion of the Company's long-term debt denominated in U.S. dollars.

## Liquidity

As at June 30, 2014, the Company had working capital of \$28.0 million compared with working capital of \$42.6 million at December 31, 2013. The reduction in working capital is a result of the Company investing and constructing the secondary crusher at the mine which has resulted in increased cash outflows and a buildup of accounts payable as the crusher nears completion. During the period Mitsubishi contributed \$10 million towards its share of the crusher costs.

At the end of the current period the Company had a buildup of ore concentrate from strong production in the current period which will result in extra concentrate sales in the third quarter. With increased production capacity expected from the secondary crusher coming on-line in the third quarter along with decreased scheduled debt principal payments over the next two years, the Company expects to be in a strong cash position going forward.

The Company holds its excess cash in interest bearing accounts or in cashable Guaranteed Investment Certificates at major Canadian or United States banks.

As at June 30, 2014 the Company had a total of \$8.2 million on deposit with the Government of British Columbia in support of reclamation liabilities at the Copper Mountain Mine. The Company receives interest from these funds on deposit.

<sup>6</sup> Net of treatment and refining charges and price adjustments

As at June 30, 2014, the Company had the following consolidated contractual obligations:

Contractual Obligation (CDN\$)	Payment Due By Period				
	Total	Less than 1 Year	1 – 3 Years	4 – 5 Years	After 5 Years
Long term debt	305,207,464	4,098,757	68,132,380	77,605,863	155,370,463
Lease obligations	22,338,475	8,385,843	13,952,632	-	-
Decommissioning & restoration provision	8,575,650	-	-	-	-
Accounts payable	17,256,852	17,256,852	-	-	-

Cash to meet the Company's future cash commitments will come from existing cash on hand, plus cash flow from operations.

Other than disclosed above the Company had no material commitments for capital expenditures as of June 30, 2014.

### Capital Resources

As at June 30, 2014, the Company had \$20.2 million in cash and cash equivalents on hand.

### Off-Balance Sheet Arrangements

None

### Transactions with Related Parties

All transactions with related parties have occurred in the normal course of the Company's operations and have been measured at their fair value as determined by management.

- During the period ended June 30, 2014 the Company sold copper concentrates to MMC with revenues totalling \$129,215,920 including pricing adjustments. (2013 – \$100,792,325).
- During the period ended June 30, 2014 the Company accrued interest on the subordinated loan with MMC totalling \$231,680 (2013 - \$231,680) and accrued a loan guarantee fee to MMC of \$327,017 (2013 – \$NIL).
- Key management includes the company's directors and officers. Compensation awarded to key management includes:

	Three months ended June 30,		Six months ended June 30,	
	2014	2013	2014	2013
	\$	\$	\$	\$

## Proposed Transactions

None

## Critical Accounting Estimates

The Company's significant accounting policies are presented in note 3 of the audited consolidated financial statements for the period ended December 31, 2013. The preparation of consolidated financial statements in accordance with International Financial Reporting Standard "IFRS" requires management to select accounting policies and make estimates. Such estimates may have a significant impact on the consolidated financial statements. These estimates include:

- mineral resources and reserves,
- current and deferred income and resource taxes
- the assumptions used in determining the decommissioning and restoration provision

Actual amounts could differ from the estimates used and, accordingly, affect the results of operations.

## Change in Accounting Policies, Including Initial Adoption

No changes to accounting policies have been made for the period ended June 30, 2014. The same accounting policies and methods of application have been applied as the Company's most recent annual audited consolidated financial statements.

## New Accounting Standards Adopted

### *IFRIC 21 – Levies*

IFRIC 21 provides guidance on the accounting for a liability to pay a levy, if that liability is within the scope of IAS 37, Provisions, Contingent Liabilities and Contingent Assets. Levies are imposed by governments in accordance with legislation and do not include income taxes or fines or other penalties imposed for breaches of legislation. The interpretation was issued to address diversity in practice when the liability to pay a levy is recognized.

The adoption of IFRIC 21 did not have an effect on the financial results or disclosures.

## Financial Instruments and Other Instruments

Please refer to note 3(d) of the audited financial statements for the period ended December 31, 2013.

## Non-GAAP Performance Measures

This document includes certain non-GAAP performance measures that do not have a standardized meaning prescribed by IFRS. These measures may differ from those used by, and may not be comparable to such measures as reported by, other issuers. The Company believes that these measures are commonly used by certain investors, in conjunction with conventional IFRS measures, to enhance their understanding of the Company's performance. These measures have been derived from the Company's financial statements and applied on a consistent basis. The following tables below provide a reconciliation of these non-GAAP measures to the most directly comparable IFRS measure.

## Cash costs per pound

Cash costs of sales include all costs absorbed into concentrate inventory, as well as precious metal credits, treatment & refining costs and transportation costs, less non-cash items such as depreciation. Total cash cost per pound sold is calculated by dividing the aggregate of the applicable costs by copper pounds sold. Site cash costs of production include all costs absorbed into inventory less non-cash items such as depreciation and non-site charges such as trucking charges capitalized to concentrate inventory. Site cash costs per pound produced are calculated by dividing the aggregate of the applicable costs by copper pounds produced. These measures are calculated on a consistent basis for the periods presented.

## Cash Margin

Cash margin represents the average realized copper price per pound sold less total cash cost per pound sold.

	Three months ended June 30,		Six months ended June 30,	
	2014	2013	2014	2013
Average realized copper price for the period (US\$ per pound)	\$3.08	\$3.18	\$3.14	\$3.37
<b>Less:</b>				
Total cash cost of sales net of precious metal credits(US\$ per pound sold)	\$2.27	2.32	\$2.18	2.25
<b>Cash margin (US\$ per pound)</b>	<b>\$0.81</b>	<b>\$0.86</b>	<b>\$0.96</b>	<b>\$1.12</b>

## Adjusted Earnings (Loss)

Adjusted earnings (loss) removes the effects of the following transactions from operating income as reported under IFRS:

- Unrealized gains/losses on derivative instruments;
- Changes in fair value of financial instruments;
- Foreign currency translation gains/losses and
- Non-recurring transactions

Management believes that these transactions do not reflect the underlying operational performance of the Company's mining operations and are also not indicative of future operating results.

## EBITDA and Adjusted EBITDA

EBITDA represents earnings before interest, income taxes and depreciation. Adjusted EBITDA includes further adjustments for non-recurring items and items not indicative to the future operating performance of the Company. The Company believes EBITDA and adjusted EBITDA are appropriate supplemental measure of debt service capacity and performance of its operations.

Adjusted EBITDA is calculated by removing the following income statement items:

- Unrealized loss/gain on interest rate swaps;
- Foreign exchange loss/gain;
- Pricing adjustments on concentrate and metal sales

EBITDA and Adjusted EBITDA	Three months ended		Six months ended	
	2014	June 30, 2013	2014	June 30, 2013

## Internal Controls Over Financial Reporting and Disclosure Controls and Procedures

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting and disclosure controls and procedures. Our internal control system over financial reporting is designed to provide reasonable assurance to management and the Board of Directors regarding the preparation and fair presentation of published financial statements. Internal control over financial reporting includes those policies and procedures that:

1. pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with IFRS, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Our internal control system over disclosure controls and procedures is designed to provide reasonable assurance that material information relating to the Company is made known to management and disclosed to others and information required to be disclosed by the Company in our annual filings, interim filings or other reports filed or submitted by us under securities legislation is recorded, processed, summarized and reported within the time periods specified in the securities legislation.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined effective can provide only reasonable assurance with respect to financial reporting and disclosure. Other than changes related to our conversion to IFRS, there have been no changes in our internal control over financial reporting and disclosure controls and procedures during the period ended June 30, 2013 that have materially affected, or are reasonably likely to materially affect, internal control over financial reporting and disclosure.

The Company's management, at the direction of our chief executive officer and chief financial officer, have evaluated the effectiveness of the design and operation of the internal controls over financial reporting and

disclosure controls and procedures as of the end of the period covered by this report, and have concluded that they were effective at a reasonable assurance level.

## **Risks and Uncertainties**

The Company's success depends on a number of factors, most of which are beyond the control of the Company. Typical risk factors include copper, gold and silver price fluctuations, foreign currency fluctuations, and operating uncertainties encountered in the mining business. Future government, legal or regulatory changes could affect any aspect of the Company's business, including, among other things, environmental issues, land claims, permitting and taxation costs all of which could adversely affect the ability of the Company to develop the Copper Mountain mine. These risks and uncertainties are managed by experienced managers, advisors and consultants, by maintaining adequate liquidity, and by cost control initiatives.

# Copper Mountain Mining Corporation

Notes to Condensed Consolidated Interim Financial Statements

Canadian dollars

(Unaudited)

---

## 1 General Information

Copper Mountain Mining Corporation (“the Company”) was incorporated under the provisions of the British Columbia Business Corporations Act on April 20, 2006 and is a Canadian development and operating mining company. The Company maintains its head office at Suite 1700 – 700 West Pender Street, Vancouver, British Columbia. The Company through a subsidiary owns 75% of the Copper Mountain mine while Mitsubishi Materials Corporation (“MMC”) owns the other 25% interest in the Copper Mountain mine.

## 2 Basis of presentation

### a. Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting* and, except as described in Note 3, follow the same accounting policies and methods of application as the Company’s most recent annual audited consolidated financial statements which were prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standard Board (“IASB”). These condensed consolidated financial statements were approved for issue on August 7, 2014 by the Board of Directors.

### b. Foreign currency translation

These condensed consolidated interim financial statements are presented in Canadian dollars, which is the Company’s functional currency. Transactions in currencies other than the functional currency are recorded at the rate of exchange prevailing on the date of the transaction. Monetary assets and liabilities that are denominated in foreign currencies are translated at the rate prevailing at each reporting date. Non-monetary items that are measured at historical cost in a foreign currency are translated at the exchange rate on the date of the transaction. Foreign currency translation differences are recognized in profit or loss.

### c. Use of judgement

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the year.

## 3 Adoption of New and Amended IFRS Pronouncements

The accounting policy adopted in preparation of these condensed consolidated financial statements has been prepared on the basis of all IFRS and amendments effective at June 30, 2014.

The standard IFRIC 21, *Levies* was adopted on January 1, 2014 with retrospective application. The adoption of this standard did not affect the Company’s financial results.

	<b>314,363,836</b>	<b>311,241,671</b>

### a) Subordinated loan

In April 2010, the Company entered into a loan agreement with a subsidiary of MMC for \$9,600,000. The loan bears interest at a fixed rate of 4.8%. The loan principal and accumulated interest matures on June 30, 2023 and is pre-payable at any time without penalty. The loan and accumulated interest is subordinate to the senior credit facility.

The outstanding amount of \$10,982,196 is net of issue and transaction costs of \$571,084 which are amortized over the life of the loan.

### b) Senior credit facility

The Company has a senior credit facility ("the SCF") with a consortium of Japanese banks.

The maximum amount available under the SCF was US\$162,000,000 and this was fully drawn during the 2011 year. The SCF carries a variable interest rate of LIBOR plus 2% and matures on June 15, 2023. The SCF is repayable in twenty four semi-annual instalments which commenced December 15, 2011, with 40% of the principal balance due in the final two years before maturity. The instalments are payable on a fixed schedule, subject to mandatory prepayment based on the cash flows relating to the project. As at June 30, 2014 cumulative principle payments made totalled US\$30,780,000.

# Copper Mountain Mining Corporation

## Notes to Condensed Consolidated Interim Financial Statements

Canadian dollars

(Unaudited)

---

Under the terms of the SCF, the Company is required from time-to-time to maintain certain debt service reserve balances which will fluctuate each year. As at June 30, 2014 the Company held a balance of \$NIL (2013 – \$NIL) classified as restricted cash.

As at June 30, 2014 the SCF has a principal amount outstanding of \$139,595,724 (US\$131,220,000). The outstanding amount of \$134,836,085 is net of issue costs of \$4,759,639 which are amortized over the life of the loan.

The SCF is collateralized by all the assets of the Copper Mountain mine and is insured by Nippon Export and Investment Insurance. In addition, the Company and MMC have guaranteed the SCF until project completion is achieved.

Minimum principal repayments of the amounts outstanding under the SCF are as follows:

<b>Annual repayments from June 30,</b>	<b>US\$</b>
2014	1,620,000
2015	1,620,000
2016	16,200,000
2017 – 2023	111,780,000
	<b><u>131,220,000</u></b>

Under the terms of the SCF, the Company was required to complete an interest rate swap on 70% of the principal amount of the facility. The Company has swapped a LIBOR variable rate interest payment stream for a 3.565% fixed rate interest payment stream on US\$91,854,000 of the principal. The interest rate swaps mature on December 15, 2020.

As at June 30, 2014 the swap had an unrealized fair value loss of \$7,450,560 (2013 - \$7,968,674). The current portion of \$784,269 is included in accounts payable and accrued liabilities.

The Company is subject to certain debt covenants on the SCF. As at June 30, 2014 the Company is in compliance with all covenants.

c) Term loan

In July 2010, the Company entered into a term loan (“the Term Loan”) with the Japan Bank for International Cooperation.

The maximum amount available under the Term Loan is US\$160,000,000. The Term Loan carries a variable interest rate of LIBOR plus 0.551% and matures on February 15, 2022. As at June 30, 2014 the Term Loan has a principal amount outstanding of \$163,891,200 (US\$153,600,000). The outstanding amount of \$159,389,183 is net of issue costs of \$4,502,017 which are amortized over the life of the loan. The Term Loan is guaranteed by MMC in exchange for a fee of 0.2% per annum.

The Term Loan is unsecured and repayable in increasing instalments every six months and commenced February 2013, with the majority of the loan falling due in the last six instalments. As at June 30, 2014 the cumulative principal payments totalled US \$6,400,000.

# Copper Mountain Mining Corporation

## Notes to Condensed Consolidated Interim Financial Statements

Canadian dollars

(Unaudited)

Minimum principal repayments of the amounts outstanding under the Term Loan are as follows:

<b>Annual repayments from June 30,</b>	<b>US\$</b>
2014	3,200,000
2015	6,400,000
2016	9,600,000
2017 - 2022	134,400,000
	<b><u>153,600,000</u></b>

The Company is subject to certain debt covenants. As at June 30, 2014 the Company is in compliance with all covenants.

d) Leases

<b>Gross finance lease liability and minimum lease payments</b>	<b>June 30, 2014</b>	<b>December 31, 2013</b>
	<b>\$</b>	<b>\$</b>
Within one year	9,209,360	7,750,485

## 9 Decommissioning and restoration provision

a. Reclamation bonds

The Company has on deposit \$8,216,500 with the Government of British Columbia in support of reclamation liabilities at the Copper Mountain mine site. The Company receives interest on these bonds.

# Copper Mountain Mining Corporation

## Notes to Condensed Consolidated Interim Financial Statements

Canadian dollars

(Unaudited)

### b. Decommissioning and restoration provision

The Company has a liability for remediation of current and past disturbances associated with mining activities at the Copper Mountain property. Decommissioning liabilities are as follows:

	<b>June 30, 2014</b>	<b>December 31, 2013</b>
	<b>\$</b>	<b>\$</b>
Opening balance	6,245,963	6,997,883
Changes in estimated costs and timing	1,029,511	(849,051)
Unwinding of discount on restoration provision	63,262	97,131
End of year	<b>7,338,736</b>	<b>6,245,963</b>

The Company used an inflation rate of 1.70% (2013 – 1.20%) and a discount rate of 2.78% (2013 – 2.41%) in calculating the estimated obligation. The liability for retirement and remediation on an undiscounted basis is \$8,575,650. The expected timing of payment of the cash flows commences in 2028.

## 10 Share capital

Authorized - Unlimited number of common shares without par value.

## 11 Share based compensation

### a. Stock options

The Company has a stock option plan whereby it can grant up to 13,000,000 stock options exercisable for a period of up to ten years from the grant date. As at June 30, 2014 the Company had 6,225,000 options issued and outstanding.

The continuity of stock options issued and outstanding is as follows:

	<b>Options outstanding</b>	<b>Weighted average exercised price \$</b>

The Company uses the fair value method of accounting for all share-based payments to directors, officers, employees and consultants. During the six month period ended June 30, 2014, the Company recorded a share-based compensation expense of \$1,773,364 (2013 - \$227,688) related to stock options.

During the six month period ended June 30, 2014, the total fair value of stock options granted was \$4,409,932 (2013 – Nil) and had a weighted average grant-date fair value of \$1.26 (2013 – Nil) per option. The fair values of the stock options granted were estimated on the respective grant date using the Black-Scholes option pricing model. Volatility was determined using a historical daily volatility over the expected life of the options.

Weighted average assumptions used in calculating the fair value of options granted during the period are as follows:

	<b>June 30, 2014</b>
Risk free interest rate	1.57%
Expected dividend yield	Nil
Expected share price volatility	60.99%
Expected forfeiture rate	3.26%
Expected life	4.90 years

### b. Deferred Share Unit Plans

#### *Deferred Share Unit Plan for Non-Employee Directors (“DSU-D”)*

The Company established a deferred share unit (“DSU”) plan that allows directors to receive director fees in the form of deferred share units. Directors can elect to receive common shares or cash upon exercise of the DSU. Certain DSUs may only be exercised when the holder ceases to be a director. Vesting terms of the DSUs are established by the directors at the time the DSUs are granted.

#### *Deferred Share Unit Program for Employees and Directors (“DSU-E”)*

The Company established a deferred share unit program that allows executive officers, directors and consultants to receive incentive compensation in the form of deferred share units. The participant can elect to receive common shares upon exercise of the DSU by paying the exercise price or they can elect to receive cash equal to the difference between the exercise price and the market price of the Company’s common shares at the time of exercise of the DSU. Vesting terms of the DSUs are established by the directors at the time the DSUs are granted.

The continuity of deferred share units issued and outstanding is as follows:

Units	Weighted average exercise price		Weighted average exercise price	
	DSU-D	\$	DSU-E	\$
Outstanding, December 31, 2012	57,339	-	329,646	3.70
Granted	-	-	950,000	1.88
Outstanding, January 1, 2014	57,339	-	1,279,646	2.65
Granted	-	-	3,150,000	1.92
Outstanding, June 30, 2014	<b>57,339</b>	-	<b>4,429,646</b>	<b>2.13</b>

As at June 30, 2014 the following deferred share units were outstanding:

Date of DSU grant	Number of Units	Weighted average exercise price		Expiry date
		Exercise price \$	\$	
DSU-D – September 17, 2010	27,027	-	-	September 17, 2020
DSU-E – September 17, 2010	329,646	3.70	3.70	September 17, 2020
DSU-D – August 12, 2011	9,571	-	-	August 12, 2021
DSU-D – April 5, 2012	20,741	-	-	April 5, 2022
DSU-E – April 13, 2013	950,000	1.88	1.88	April 13, 2018
DSU-E – February 20, 2014	3,150,000	1.92	1.92	February 20, 2019

### Financial liabilities

#### *Amortized cost*

Accounts payable (note 7)	17,256,852	10,604,349
Long-term debt (note 8)	314,363,836	311,241,671

#### *Fair value through profit and loss*

Interest rate swap liability (note 8b)	7,450,560	8,727,596
--	-----------	-----------

### Fair Value hierarchy

The following table classifies financial assets and liabilities that are recognized on the balance sheet at fair value in a hierarchy that is based on significance of the inputs used in making the measurements.

The levels in the hierarchy are:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices)
- Level 3 - Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The following table sets forth the Company's financial assets and liabilities measured at fair value by level within the fair value hierarchy as at June 30, 2014:

	Level 1	Level 2	Level 3	Total fair value
	\$	\$	\$	\$
<b>Financial assets</b>				
Pricing adjustments (note 4 )	-	2,991,495	-	2,991,495
<b>Financial liabilities</b>				
Interest rate swap liability (note 8b)	-	7,450,560	-	7,450,560

### Financial risks factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk, and commodity price risk), credit risk and liquidity risk. Risk management is carried out by management under policies approved by the board of directors. Management identifies and evaluates the financial risks in co-operation with the company's operating units. The board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity. The Company's overall risk management program seeks to minimize potential adverse effects on the company's financial performance.
