

Mill Maintenance General Foreman

Copper Mountain Mine is a large scale open pit copper mine located in south central British Columbia. The mine has evolved into a mature and highly efficient operation with a long term mine plan and significant opportunity for mine life extension. If you like to work with people in a working environment to deliver results, and you enjoy an active outdoor lifestyle with easy access to city life, this could be your opportunity.

Reporting to the Mill Maintenance Superintendent and working as part of the Mill Maintenance team, you will be responsible for the safe and efficient maintenance of all milling equipment within the mill building, internal and external tailings system, pumping systems for underground water, and surface fresh and reclaim water pumping systems.

Position Overview

- Provide technical and organizational guidance to Mill Maintenance Planners, Supervisors, and onsite mill maintenance contractors
- Responsible for site fixed equipment maintenance
- Work closely with mill operations as well as other groups and suppliers
- Create and foster a positive work culture
- Develop and execute on improvement opportunities
- Assure team members adhere to all safety practices and policies
- Analyze downtime and plan areas for improvement
- Coordinate with all departments to ensure purpose and direction regarding maintenance activities within the concentrator and site services
- Planning and managing of capital projects
- Assist in setting and managing budgets
- Manage the effectiveness of labor utilization
- Coordinate with outside suppliers and ensure that work is completed in a safe manner that complies with all necessary health and safety legislation and regulations

Safety

- Lead by example, and set clear expectations for safe work practices
- Ensure full compliance with all SOPs, and the Health, Safety, and Reclamation Code for Mines in BC
- Use risk assessment process for managing safety effectiveness
- Follow all environmental policies and comply with all legislation

Qualifications

- BC Mine Supervisor Certification or able to obtain certificate within 1 month of start of employment
- Millwright/Industrial Mechanic Red Seal
- Minimum 5 to 10 years' of varied experience in mill maintenance that includes crushers, SAG and ball mills, maintenance planning, and experience in a large mining environment
- Previous experience as a supervisor, experience as a general foreman an asset
- Have excellent written and verbal communication skills

- Strong computer skills including Microsoft Office Suite
- Excellent interpersonal skills with the ability to work collaboratively with other departments and suppliers
- Working knowledge of maintenance planning programs
- Valid driver's license
- The incumbent will be required to reside in Princeton, BC

Pay and Benefits
