

Environmental Manager

Copper Mountain Mine is a large scale open pit copper mine located in south central British Columbia. The mine is a mature and highly efficient operation with a long term mine plan and significant opportunity for additional mine life extension. If you like to work with people in a working environment to deliver results, and you enjoy an active outdoor lifestyle with easy access to city life, this could be your opportunity.

As a senior member of the Copper Mountain Mine management team, this role is responsible for managing the environmental requirements of the mine site and to assist the General Manager and Management Team in the design, implementation and operation of integrated management systems and standards, policies and procedures in relation to the Environment.

KEY ACCOUNTABILITIES:

- Ensure compliance with statutory environmental requirements and conformance with established company requirements.
- Integrate environmental initiatives into departmental planning, decision making, systems and processes.
- Promote awareness and establish appropriate departmental targets to prevent harm.
- Ensure hazards and sources of loss are identified, evaluated and controlled.
- Be accountable for health and safety activities within the department.
- Conduct business of Copper Mountain in an exemplary manner in terms of ethical, commercial, legislative and community expectations and requirements.
- Develop a high level of environmental awareness at the site.

SPECIFIC FUNCTION AREAS:

- Effective management of regulatory reporting requirements.
- Management of Environmental Department capital and operational projects.
- Development and maintenance of site hydrology and hydrogeology models
- Management of site water, air, wildlife, aquatic and other environmental monitoring programs.
- Effective communication of environmental matters with local communities and First Nations groups.
- Develop and maintain a positive relationship with the regulatory authorities
- Act as the main point of contact for permit amendments.
- Development and implementation of site specific environmental and department SOPs
- Environmental conformance & compliance auditing.
- Workplace environmental inspections & reporting.
- Management of environmental incident investigation and reporting.
- Coaching & consulting to all levels.
- Department staff development.
- Development of department capital and operating budgets

Qualifications

- Registered Professional Engineer, Biologist, Agrologist or similar position able to act as a Qualified Person as defined by the Health, Safety and Reclamation Code for Mines in BC.
- 8+ years experience of environmental management within heavy industry.
- Demonstrated ability to communicate with and work with regulators and First Nations to achieve desired outcomes.
- Experience working in open pit mining/concentrators.
- Valid driver's licence is required

Pay and Benefits

CMM offers a competitive wage and comprehensive benefit package. **There is no camp provision at Copper Mountain Mine.**

This is a Monday to Friday position. Relocation to Princeton British Columbia is required. All qualified persons are invited to apply; **applicants must be legally entitled to work in Canada.**

You will be required to participate in a pre-employment drug & alcohol screening and a medical.

Send resume outlining related qualifications to hr@cumtnop.com (in either word or pdf format) no later than June 30, 2020.

We wish to thank all applicants for their interest and effort in applying for the position; however, only candidates selected for interviews will be contacted.

Your application to this posting is deemed to be your consent to the collection, use and necessary disclosure of personal information for the purposes of recruitment. Copper Mountain Mine respects the privacy of all applicants and the confidentiality of personal information.
