

Copper Mountain Mining Corporation (CMMC) is a TSX/ASX listed copper producer, developer and explorer in world class mining jurisdictions. Copper Mountain's flagship asset is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton. The Copper Mountain mine produces over 100 million pounds of copper equivalent per year with a large resource that remains open laterally and at depth. Copper Mountain also has the development stage Eva Copper Project in Queensland, Australia, which is expected to add approximately 100 million pounds of copper on an annual basis, in addition to an extensive 210,000 hectare highly prospective land package in the Mount Isa area. Headquartered in Vancouver, BC, Copper Mountain trades on the Toronto Stock Exchange under the symbol "CMMC" and Australian Stock Exchange under the symbol "C6C".

Position

Environment Manager, Eva Copper

Location

Cloncurry, Queensland, Australia

Summary

Reporting to the Eva Copper Production Manager, the Environment Manager is responsible for leading all activities related to environment and permitting for Copper Mountain Mining's Eva Copper Project and Mount Isa Inlier exploration projects.

Key Responsibilities

- Pursue proactive environmental management practices and initiatives intended to constantly improve the Project's environmental performance and rehabilitation outcomes.
- Develop and maintain strong working relationships with various levels of government, regulatory agencies, stakeholders, and communities to advance the Project.
- Ensure compliance is maintained with regards to environmental permits, licenses and regulations.
- Keep abreast of existing and pending legislation and regulations which may impact CMMC's plans and activities; coordinate and disseminate regulatory information within the Company.
- Coordinate and manage environmental and permitting contractor and consultant activities.
- Provide corporate technical support on environmental compliance, governance and permitting in Australia.
- Support the Community Manager to inform local communities on environmental matters and foster strong relationships in a manner consistent with CMMC's values.
- Manage annual and periodic reporting on mine activities and permit compliance to respective government agencies.
- Perform other duties as assigned and required.

Education & Experience

- Bachelor's degree in Environmental Science, Engineering, or related field.
- Minimum 8 years related experience, including extensive environmental/permitting experience with mining operations or resource projects, preferably in Australia.
- Working knowledge of the applicable Queensland and federal environmental regulations.
- Familiar with current regulatory, environmental assessment and permitting practices.

Required Skills

- Demonstrated high level of interpersonal skills including the ability to develop trust, negotiate, and manage a variety of external and internal stakeholders across all levels and from varying backgrounds.
- Demonstrated high standard of integrity, ethics, judgement and confidentiality.
- Ability to work in dynamic environment managing multiple priorities under tight deadlines.
- Excellent oral and written communication skills, including the ability to present ideas clearly.
- Ability to take initiative and work independently as well as across different levels of the organization.
- Strong attention to detail and exceptional organizational skills
- Ability to identify key technical and business issues and develop innovative solutions.
- Strong leadership skills and ability to build relationships.
