

WHY CHOOSE COPPER MOUNTAIN MINE?

The mine is located approximately twenty kilometers south of the community of Princeton, British Columbia at the center of the Similkameen Valley. Princeton offers a variety of activities for every season. The Kettle Valley Railway makes up part of the TransCanada trail that goes right through town. The area boasts miles of trails for hiking, off road vehicle fun, includes plenty of lakes for fishing, kayaking, and camping. The community offers something for everyone and interests, such as golfing, yoga, karate, highland dance, curling, bowling and hockey. You have proximity to both the Lower Mainland and the Okanagan within in a two-hour or less drive that offers a variety of fun-filled activities. Princeton quickly become a popular place to call home. If you like working with people in a diverse fast-paced environment that offers a work-life balance unlike that of the big city; this could be the opportunity for you. Our power is through our people, our teams, bringing the right skills together to achieve higher performance, productivity, and reward.

WHAT'S THE JOB?

At Copper Mountain Mine, we see our environmental responsibilities as an integral component in our operations requiring a conscientious effort to minimize our environmental footprint. We are committed to achievable Health and Safety standards. We prioritize Aboriginal and Community Outreach. We have a robust development and organic growth pipeline highlighting with our Princeton, BC mine as our flagship asset producing 100 million pounds of copper equivalent per year. We understand that is our people who bring a blend of skills and experience that see every problem having a solution and leverages that mix of talent

As a **Mine Operations Supervisor (Job Code 2021-092)**, reporting to the Mine Operations Senior Supervisor, you will provide full oversight of day-to-day mine operations, including providing work assignments/direction, time tracking, administration and providing support through good communication and feedback to crew/team members. Ensuring mine operations are conducted in a safe manger that ensures maximum production at minimum cost.

Your work will include:

- Demonstrate a safe work environment, ensuring maximum production compliance with CMM's Health, Safety and Environmental Programs and the BC Mines Act.
- Ensure that all direct employees are competent and preform their job functions safety and efficiently
- Scrutinize daily operating variables to achieve and improve upon production targets
- Coordinate mine operation to ensure maintenance requirements are met.
- Ensure that production issues and opportunities are addressed through regular communication with other stakeholders, such as Engineering, Mine Maintenance, Mill Operations and other site departments.
- Adhere to all health safety, and environmental requirements and regulations.
- Develop an engaged, motivated and effective operating team through leadership, dialogue and coaching.
- Ensure that employees follow company policies, standards and procedures.
- Ensure quality Flash Reports, SLAMs and Accident/Incident reports are completed in timely fashion.
- Complete performance evaluations on direct reports and provide regular feedback.
- Promote consistency between shifts in all aspects of the mine (safety, housekeeping, training and manpower utilization).

- Other duties as assigned.

WHAT'S IN IT FOR YOU?

- Part of Net zero by 2035 aligned with the Paris Agreement.
- Strong foundation with sustainable copper growth.
- Long life assets, low risk and high returns.
- Career advancement opportunities.
- Strength in a diverse and inclusive workforce
