

Senior Metallurgist

Copper Mountain Mining Corporation is a TSX/ASX listed copper producer, developer, and explorer in world class mining jurisdictions. Copper Mountain's flagship asset is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton. The Copper Mountain mine has a +30 year mine life based on resources and produces over 100 million pounds of copper equivalent per year with exceptional upside.

The Company also has the development-stage Eva Copper Project in Queensland, Australia in addition to an extensive 210,000 hectare highly prospective land package in the Mount Isa district. Headquartered in Vancouver, BC, Copper Mountain trades on the Toronto Stock Exchange under the symbol "CMMC" and Australian Stock Exchange under the symbol "C6C".

Become a Part of Our Team

As we continue to grow Copper Mountain Mining Corporation, there are many career development opportunities available for motivated and goal-oriented individuals.

Work with us and you will benefit from the mentorship and guidance of experienced team members because we understand that in order to accomplish our goals, we must work as a team and rely on the effort of every team member.

Position

Senior Metallurgist

Location

Copper Mountain Mine is located near the town of Princeton, British Columbia at the center of the scenic Similkameen Valley. Princeton is a community-oriented town with a diverse offering of activities, especially for those who love the outdoors. Princeton is also in close proximity to both the city of Vancouver and the Okanagan.

Summary

Reporting to the Chief Metallurgist, the Senior Metallurgist will be responsible for the safe and efficient performance of test programs/plant work to optimize mill performance. Working closely with technical personnel, operations, and maintenance personnel.

Responsibilities

- Participates in all Environmental, Health, and Safety aspects of the mine and assures all safety procedures and programs are effectively being followed.
- Maintains reagent systems, installs pumping systems, and maintains ready spares and parts for all system responsibilities (buckets, samples, spargers, pumps, etc.)
- Monitors reagent and ball inventories and copper inventories.
- Checks autosamplers for cleanliness and pumps for operability.
- Set up and keep up-to-date spreadsheets to monitor copper inventory.
- Prepare reagent pump calibrations, sampler cleanings, and column sparger change-outs.
- Provide technical metallurgical support for flotation operations.

- Offer guidance and mentorship across technical and operations teams.
- Help with long-range planning and process improvement initiatives with respect to mine to mill and recovery.
- Performs other duties as required.

Education & Experience

- Minimum of five (5) years' mine metallurgy experience.
- Base metal flotation exposure required.
- Experience at an operating Mill as an asset.

Required Skills

- Strong communicator – a bridge between technical and operational teams.
- Collaborative, hands-on approach.
- Flexibility and creativity in dealing with scheduling, mine planning, and other complex issues.
- Experience working on projects, overseeing, coordinating, and communicating with multiple internal resources and external contractors.
- Strong computer skills in Microsoft Office Suite: Outlook, Word, Excel, and PowerPoint.
- Strong analytical, problem-solving skills and comfortable making recommendations.
- Ability to multi-task and work in a fast-paced environment.
- Capacity to work in a self-directed manner and possess good time management skills.
- Ability to work collaboratively with others in a technical team-based environment.
- Demonstrated ability to work well with people at all levels of the organization, an ability to influence outcomes, and an ability to manage conflict.
- Strong leadership skills, including ability to manage a diverse team to effectively leverage skillsets and providing additional support where necessary.
- Requisite to possess a valid driver's license.
- Required to meet pre-employment testing requirements.

To Apply

To apply, please send your cover letter and resume to humanresources@cumtn.com. Please include '**Senior Metallurgist**' in the subject line of your email response.

Copper Mountain Mine is an equal opportunity employer committed to diversity, equity, and inclusion. While we consider all qualified applicants for employment and thank all applicants for their interest, only those selected for an interview will be contacted.
