

Copper Mountain Mining Corporation (CMMC) is a TSX/ASX listed copper producer, developer and explorer in world class mining jurisdictions. Copper Mountain's flagship asset is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton. The Copper Mountain mine produces over 100 million pounds of copper equivalent per year with a large resource that remains open laterally and at depth. Copper Mountain also has the development stage Eva Copper Project in Queensland, Australia, which is expected to add approximately 100 million pounds of copper on an annual basis, in addition to an extensive 210,000 hectare highly prospective land package in the Mount Isa district. Headquartered in Vancouver, BC, Copper Mountain trades on the Toronto Stock Exchange under the symbol "CMMC" and Australian Stock Exchange under the symbol "C6C".

Become a Part of Our Team

As we continue to grow Copper Mountain Mining Corporation, there are many career development opportunities available for motivated and goal-oriented individuals.

Work with us and you will benefit from the mentorship and guidance of experienced professionals because we understand that in order to accomplish our goals, we must work as a team and rely on the effort of every team member.

Position

Director, Mine Engineering and Planning

Location

Vancouver, BC with travel as required to the Copper Mountain Mine and other exploration locations.

Summary

To support the growth of our business, we are seeking a Director, Mine Engineering and Planning to join our Technical Services team.

Reporting to the VP Technical Services, the Director of Mine Engineering and Planning is responsible for leading the mine planning function at Copper Mountain Mining Corporation's operations and development projects.

Key Responsibilities

- Manage Life of Mine scheduling for the operations.
- Support the mine(s) in the preparation of short- and long-term production plans; reconcile plans and actual production.
- Produce and evaluate multiple scenarios of mine plans, schedules, and capital plans with multiple, competing constraints to determine optimal paths forward.
- Work on due diligence evaluations with Corporate Development team on strategic options for growth and/ or Mergers and acquisitions.
- Analyze information and prepare technical documents to support decision making; present recommendations and status updates to key stakeholders.
- Provide day-to-day support, guidance and coaching to team members.
- Provide professional mentorship and guidance to CMMC's operations and projects.

- Maintain relationships with mining experts within the industry to keep informed on mining developments.
- Keep informed on new technology and provide leadership to capture business opportunities associated with the implementation of new technologies.
- Manage design of Company mining-related projects.
- Ensure that mine designs and operation plans meet CMMC and industry-standard safety parameters.
- Provide support and documentation for Permitting to government and consultants.

Education & Experience

- Undergraduate degree in Mining Engineering
- Minimum 10 -15 years of open-pit mining design experience, preferably including time at an operating mine and within a design engineering firm.

Required Skills

- Flexibility and creativity in dealing with scheduling, mine planning, and other complex issues.
- Excellent oral and written communication skills, including the ability to present ideas clearly.
- Strong technical reporting writing and presentation skills.
- Ability to take initiative, influence and work independently across different levels of the organization.
- Ability to identify key technical and business issues and develop innovative solutions.
- High degree of business acumen and ability to think strategically.
- Strong computer skills in Microsoft Office Suite: Outlook, Word, Excel, and PowerPoint.
- Extensive experience in utilizing appropriate mine planning, design and scheduling software packages, including Mine Sched, NPVS, or XPAC, GIS software or other mine planning software.

To apply, please send your cover letter and resume to hr@cumtn.com. Please include '**Director, Mine Engineering and Planning**' in the subject line of your email response.

While we thank all applicants for their interest, only those selected for an interview will be contacted.
