

## **Mine Geologist**

Copper Mountain Mining Corporation is a TSX/ASX listed copper producer, developer, and explorer in world-class mining jurisdictions. Copper Mountain's flagship asset is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton. The Copper Mountain mine has a +30-year mine life based on resources and produces over 100 million pounds of copper equivalent per year with exceptional upside.

The Company also has the development-stage Eva Copper Project in Queensland, Australia in addition to an extensive 210,000 hectare highly prospective land package in the Mount Isa district. Headquartered in Vancouver, BC, Copper Mountain trades on the Toronto Stock Exchange under the symbol "CMMC" and the Australian Stock Exchange under the symbol "C6C".

### **Become a Part of Our Team**

As we continue to grow Copper Mountain Mining Corporation, many career development opportunities are available for motivated and goal-oriented individuals.

Work with us and you will benefit from the mentorship and guidance of experienced team members because we understand that to accomplish our goals, we must work as a team and rely on the effort of every team member.

### **Position**

#### **Mine Geologist**

### **Location**

Copper Mountain Mine, is located near the town of Princeton, British Columbia at the center of the scenic Similkameen Valley. Princeton is a community-oriented town with a diverse offering of activities, especially for those who love the outdoors. Princeton is also near both the city of Vancouver and the Okanagan.

### **Summary**

Reporting to the Senior Geologist, the Mine Geologist is responsible for carrying out leading practice geoscience work to ensure that we understand the geology of the Copper Mountain ore body and have well-constrained geological models to support mine planning and operations. The Mine Geologist will contribute to all aspects of the mine geology workflow and will also collaborate with the Exploration and Geoscience group on resource expansion drill programs.

### **Responsibilities**

- Delivers field mapping of lithological, alteration, and structural domains within the open pit.
- Provides geotechnical mapping in support of blasting operations and mine wall/slope stability.
- Assigns tasks of blast hole sampling to ensure sample quality, including QA-QC checks to ensure sample quality, and logging of blast hole cuttings.
- Plans and supervises infill RC drill programs, including QA-QC checks to ensure sample quality, and logging of RC Chips.
- Ensures that geoscience data is accurately recorded and entered into the database.

- Creates ore control boundaries and provides this data to mine planners.
- Coordinates with the mine assay laboratory and environmental group to ensure that technical protocols are followed.
- Provides technical and logistical support to the Exploration and Geoscience team for resource expansion diamond drill programs.
- Performs other responsibilities as required or as assigned.

### Education & Experience

- Bachelor's Degree in Geology, Earth Sciences, or equivalent.
- Minimum of two to five (2-5) years of experience working in a mining environment.
- Experience in porphyry copper-gold deposit geology would be considered an asset.
- Possess a valid Class 5 British Columbia driver's license.

### Required Skills

- Focused, self-motivated, and well organized.
- Good oral and written communication skills.
- Ability to work in a multi-disciplinary team environment.
- Ability to collaborate with other technical groups at the mine and in head office.
- Strong numeracy, data analysis, and interpretation skills.
- Proficiency with Surpac modelling software is considered an asset.
- Working knowledge of one or more industry-standard software packages, such as ArcGIS or QGIS, ioGAS, Leapfrog Geo, and AcQuire. Knowledge or experience of resource modelling would be a bonus.
- Familiar with MS Office applications.
- Must be able to repetitively lift and carry 20 kg.
- Must be able to work safely in and around heavy equipment and drill rigs.
- Commitment to undertake annual professional development education.
- Required to meet pre-employment testing requirements.

### To Apply

To apply, please send your cover letter and resume to [humanresources@cumtn.com](mailto:humanresources@cumtn.com). Please include '**Mine Geologist**' in the subject line of your email response.

Copper Mountain Mine is an equal opportunity employer committed to diversity, equity, and inclusion. While we consider all qualified applicants for employment and thank all applicants for their interest, only those selected for an interview will be contacted.
