

Welder

Copper Mountain Mining Corporation is a TSX/ASX listed copper producer, developer, and explorer in world-class mining jurisdictions. Copper Mountain's flagship asset is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton. The Copper Mountain mine has a +30-year mine life based on resources and produces over 100 million pounds of copper equivalent per year with exceptional upside.

The Company also has the development-stage Eva Copper Project in Queensland, Australia in addition to an extensive 210,000 hectare highly prospective land package in the Mount Isa district. Headquartered in Vancouver, BC, Copper Mountain trades on the Toronto Stock Exchange under the symbol "CMMC" and the Australian Stock Exchange under the symbol "C6C".

Become a Part of Our Team

As we continue to grow Copper Mountain Mining Corporation, many career development opportunities are available for motivated and goal-oriented individuals.

Work with us and you will benefit from the mentorship and guidance of experienced team members because we understand that to accomplish our goals, we must work as a team and rely on the effort of every team member.

Position

Welder

Location

Copper Mountain Mine is located near the town of Princeton, British Columbia at the center of the scenic Similkameen Valley. Princeton is a community-oriented town with a diverse offering of activities, especially for those who love the outdoors. Princeton is also nearby both, the city of Vancouver and the Okanagan.

Summary

Reporting to the Mine Maintenance Supervisor, the Welder is responsible for repairing and maintaining site structures and equipment in a shop or field environment. The Welder will work 7x7 rotation and 12-hour shifts.

Responsibilities

- Reads and interprets blueprints or welding process specifications.
- Operates manual or semi-automatic welding equipment to fuse metal segments using processes, such as gas tungsten arc welding (GTAW), gas metal arc welding (GMAW), flux-cored arc welding (FCAW), plasma arc welding (PAW), shielded metal arc welding (SMAW), oxy-acetylene welding (OAW), resistance welding, and submerged arc welding (SAW)
- Uses manual or semi-automatic flame-cutting equipment.
- Runs brazing and soldering equipment.
- Conducts technical inspections, repairs, modifications, and retrofits, while maintaining safe work.
- Ensures accuracy and completion of assigned tasks and projects.

- Keeps detailed and accurate reports and documentation.
- Performs other responsibilities as required or as assigned.

Education & Experience

- Valid CWB welding certification in all positions, encompassing Gas Metal Arc Welding (GMAW) and Shielded Metal Arc Welding (SMAW).
- Journeyman Red Seal Welder with a minimum of five (5) years of experience in the mining or heavy industrial setting.
- Valid Class 5 British Columbia driver's license.
- Experience with mobile equipment and routine maintenance operations.

Required Skills

- Able to effectively communicate, verbally and in writing, coupled with exceptional interpersonal skills that allow one to work collaboratively with others in a positive manner and a diverse environment.
- Possess strong organizational, prioritization, and time management skills.
- Adept to work efficiently and in a safe manner without supervision.
- Must work well in a fast-paced, dynamic environment, and possess a strong work ethic.
- Required to meet pre-employment testing requirements.

To Apply

To apply, please send your cover letter and resume to humanresources@cumtn.com. Please include '**Welder**' in the subject line of your email response.

Copper Mountain Mine is an equal opportunity employer committed to diversity, equity, and inclusion. While we consider all qualified applicants for employment and thank all applicants for their interest, only those selected for an interview will be contacted. All resumes are kept on file for future opportunities.
