

## **Environmental Technician**

Copper Mountain Mining Corporation is a TSX/ASX listed copper producer, developer, and explorer in world-class mining jurisdictions. Copper Mountain's flagship asset is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton. The Copper Mountain mine has a +30-year mine life based on resources and produces over 100 million pounds of copper equivalent per year with exceptional upside.

The Company also has the development-stage Eva Copper Project in Queensland, Australia in addition to an extensive 210,000 hectare highly prospective land package in the Mount Isa district. Headquartered in Vancouver, BC, Copper Mountain trades on the Toronto Stock Exchange under the symbol "CMMC" and the Australian Stock Exchange under the symbol "C6C".

### **Become a Part of Our Team**

As we continue to grow Copper Mountain Mining Corporation, there are many career development opportunities available for motivated and goal-oriented individuals.

Work with us and you will benefit from the mentorship and guidance of experienced team members because we understand that in order to accomplish our goals, we must work as a team and rely on the effort of every team member.

### **Position**

#### **Environmental Technician**

### **Location**

Copper Mountain Mine is located near the town of Princeton, British Columbia at the center of the scenic Similkameen Valley. Princeton is a community-oriented town with a diverse offering of activities, especially for those who love the outdoors. Princeton is also in close proximity to both the city of Vancouver and the Okanagan.

### **Summary**

This is a temporary full-time role on a 5x2 rotation, 12-hour shifts, and day shift.

### **Responsibilities**

- Participates in all Environment and Health & Safety programs of CMM and supports the Copper Mountain Mine safety culture through involvement in daily and monthly safety meetings and initiatives,
- Adheres strictly to PPE requirements in all areas while on mine property,
- Follows all Company policies, procedures, and standard operating procedures (SOPs),
- Ensures all standard environmental practices are achieving the highest level of environmental stewardship and compliance,
- Assists with on-site environmental sampling, preparing samples for shipment,
- Updates environmental data and reporting in our Environmental Data Management System,

- Participates in wildlife monitoring projects, including installing, and managing on-site wildlife cameras,
- Calibrates and performs maintenance on environmental monitoring equipment,
- Performs any other responsibilities related to the Environmental Technician role as required or as assigned by the department head.

### **Education & Experience**

- High School Diploma or General Educational Development (GED),
- Post-secondary diploma in Sciences, with a strong preference for natural resources, environmental sciences, biology, environmental monitoring and planning, or a closely related field is considered an asset,
- Environmental experience in conducting fieldwork is considered an asset,
- Prior work experience with environmental compliance and monitoring in the mining industry is highly considered,
- Experience operating Four Wheel Drive (AWD) vehicles, snowmobiles, and ATV units considered an asset,
- Proficient in Microsoft Office applications (Word, Excel, PowerPoint, Outlook),
- Possess a valid Class 5/7N driver's license and have access to personal transportation.

### **Required Skills**

- Strong written, verbal, and interpersonal communication skills with a capability to communicate and present ideas,
- Have high regard for personal safety and the safety of company property and other employees,
- Ability to set up, calibrate, operate, and maintain field equipment,
- Ability to prepare documentation as well as regulatory and internal reports,
- Skill in working in a fast-paced, dynamic work environment,
- Ability to perform tasks with minimal supervision,
- Motivated self-starter with the ability to manage multiple priorities simultaneously under tight deadlines,
- Ability to walk several kilometres while carrying sampling equipment,
- Required to meet pre-employment testing requirements.

### **Working Conditions**

- Frequent exposure to various conditions associated with working outdoors, including weather conditions, e.g., rain, snow, heat, cold; hiking, and working in remote locations,
- Exposure to associated risks involved with field specimen, data, and sample collection,
- May be required to perform repetitive heavy lifting or moving items and equipment up to 50 pounds,
- Work will require manual dexterity to operate and calibrate field equipment, tools, and computer peripherals,
- Work will require operating a light vehicle at our operations, in various weather conditions and terrain, including winter driving.

### **Other Requirements**

- Successful completion of pre-employment screening requirements and drug & alcohol testing,
- Provide proof of a valid Class 5/7N driver's license,
- Demonstrate eligibility to work in Canada,
- Provide confirmation of valid educational requirements.
