

Planner

Copper Mountain Mining Corporation is a TSX/ASX listed copper producer, developer, and explorer in world-class mining jurisdictions. Copper Mountain's flagship asset is the 75% owned Copper Mountain mine located in southern British Columbia near the town of Princeton. The Copper Mountain mine has a +30-year mine life based on resources and produces over 100 million pounds of copper equivalent per year with exceptional upside.

The Company also has the development-stage Eva Copper Project in Queensland, Australia in addition to an extensive 210,000 hectare highly prospective land package in the Mount Isa district. Headquartered in Vancouver, BC, Copper Mountain trades on the Toronto Stock Exchange under the symbol "CMMC" and the Australian Stock Exchange under the symbol "C6C".

Become a Part of Our Team

As we continue to grow Copper Mountain Mining Corporation, many career development opportunities are available for motivated and goal-oriented individuals.

Work with us and you will benefit from the mentorship and guidance of experienced team members because we understand that to accomplish our goals, we must work as a team and rely on the effort of every team member.

Position

Planner

Location

Copper Mountain Mine, is located near the town of Princeton, British Columbia at the center of the scenic Similkameen Valley. Princeton is a community-oriented town with a diverse offering of activities, especially for those who love the outdoors. Princeton is also in close proximity to both the city of Vancouver and the Okanagan.

Summary

Reporting to the Superintendent, Mill Maintenance, the Planner is responsible for the delivery of the planned performance of the plant, with zero injuries at the lowest practical unit cost. The Planner will produce fully planned work packages, for approved work orders, that specify the requirements to complete the work safely, correctly, and efficiently and will be aligned with the Mill Operations, health policies, safety initiatives, environmental standards, and maintenance strategy.

Key Responsibilities

- Executes the "Plan Work" element of the Work Management Process,
- Complies with quality specifications and authority levels set out in the documentation,
- Reviews the Work Order Status Report daily to assist in prioritizing planning work and tracking upcoming work,
- Plans, within the area of responsibility, approved work orders for resource procurement and execution before the Target Start Date,

- Encourages contribution of planning details from the Supervisor and Crew members, mainly Supervisors and crew members,
- Incorporates crew input into planning packages,
- Identifies and escalates all critical issues that threaten the successful planning of work orders for completion by their Target Start Date,
- Plans work to minimize the demand for resources and the impact on operating performance without exceeding the Target Start Date for work completion,
- Develops and uses Job Plans to improve the efficiency of the planning process,
- Ensures site compliance with mining regulations,
- Follows Copper Mountain Mine site's safety, quality, and environmental standards in all aspects of work as well as standard operating procedures (SOPs),
- Promotes compliance with the Occupational Health and Safety Act and Mines Safety Act,
- Performs any other responsibilities related to the Planner's role as required or as assigned by the department head.

Education & Experience

- Diploma in Maintenance Planning or Mechanical Engineering Technology or closely related field,
- Red Seal Certificate in millwright or electrical is considered an asset,
- Minimum of five (5) years of related industrial maintenance planning experience, with at least three (3) years in a mining or industrial production environment,
- Adept in Microsoft Office applications (Word, Excel, PowerPoint, Outlook), including Microsoft Project,
- Proficient user of IBM Maximo is considered an asset,
- Possess a valid Class 5/7N driver's license and have access to personal transportation.

Required Skills

- Strong written and verbal communication skills with all levels of the operation,
- Excellent interpersonal skills with the ability to liaise with mill operations personnel and senior management,
- Ability to read and understand General Arrangement (GA) drawings, mechanical detailed drawings, P&ID's, technical instructions manuals, and parts books,
- Ability to be a self-motivated, team player with a positive attitude and the ability to work with minimal supervision,
- Skill in managing multiple priorities simultaneously under tight deadlines,
- Knowledge of mill, crusher, and water systems is considered an asset,
- Skill in working in a fast-paced, dynamic work environment,
- Required to meet pre-employment testing requirements.

Working Conditions

- Occasional exposure to working in adverse temperature conditions,
- Routine exposure to a team environment with regularly scheduled and ad-hoc meetings,
- Occasional exposure to sitting at a computer doing work online,

- Frequent exposure to adverse temperature conditions associated with the work environment such as working in noisy, dusty, and wet environments,
- Exposure to working outdoors in all weather conditions, operating a light vehicle at our operations, in various weather conditions and terrain, including winter driving.

To Apply
